

Unifocus Uniforms Solution

CORAL SPRINGS, FLORIDA, 33076 - USA

Supplier Reference and Technical Compliance – Unifocus USA

Dear TS TECH - TSAM,

This letter is provided as a formal supplier reference regarding Unifocus USA, based on the established commercial relationship between TS TECH Brazil and Unifoco Confecções e Comércio de Uniformes Ltda. in Brazil.

Throughout our partnership, Unifoco Brazil has consistently met all technical specifications, quality standards, and compliance requirements defined by TS TECH Brazil. All uniforms supplied were produced strictly in accordance with the approved technical specifications of each manufacturing facility, using standardized size ranges and industrial-grade materials suitable for daily operational use.

During 2025, Unifoco Brazil delivered more than 20,000 uniform pieces to TS TECH Brazil, maintaining reliability in delivery schedules, product consistency, and technical conformity. Additionally, Unifoco Brazil has maintained dedicated inventory for TS TECH Brazil without additional cost, supporting operational continuity and demand fluctuations.

Building upon this proven performance, Unifoco Brazil has established Unifocus USA to support TS TECH TSAM operations in the United States, following the same technical standards, quality controls, and operational discipline applied in Brazil.

This reference is intended to confirm technical capability, compliance history, and supplier reliability. We trust it will support your internal evaluation process.

Should further technical or commercial clarification be required, Unifocus USA remains available to provide additional information.

TS TECH - BRASIL
